

Laia Casamiquela

Astronome-adjointe CNAP
GEPI, Observatoire de Paris
5 Place Jules Janssen, 92195 Meudon FRANCE
laia.casamiquela@obspm.fr

EDUCATION	<i>PhD studies Cum Laude qualification</i> "Chemical and dynamical analysis of Open Clusters in the context of the Milky Way disc" https://zenodo.org/record/836759#.Ww5amnWFNhE Universitat de Barcelona, Spain	Sep 2013-Jun 2017
	<i>Master in Astrophysics, Particle Physics and Cosmology</i> Universitat de Barcelona, Spain	Sep 2012-Jul 2013
	<i>BSc degree in Physics</i> Universitat de Barcelona, Spain	Sep 2007-Jul 2012
Participation in Schools	International School of Space Science "Space Astrometry for Astrophysics" L'Aquila, Italy	Jun 2019
	Astrobiology introductory course RED'19 Le Teich, France	Mar 2019
	Young Astronomer School on the Scientific Exploitation of the <i>Gaia</i> data Paris, France	Fev 2018
	Big Data with Apache Hadoop and Apache Spark" CULTURELAB, Barcelona, Spain	Sep 2017
	Evry Schatzman School 2015 - Stellar clusters Banyuls sur Mer, France	Oct 2015
	Evry Schatzman School 2013 - The ages of the stars Roscoff, France	Sep 2013
POSTDOC EXPERIENCE	<i>Ramón y Cajal fellowship</i> Institut de Ciències del Cosmos, Universitat de Barcelona	Jan 2023 -
	<i>PSL Postdoctoral fellowship</i> GEPI Observatoire Paris, Meudon, France	Dec 2021 - Nov 2023
	<i>CNES Postdoctoral fellowship</i> Laboratoire d'Astrophysique de Bordeaux, Pessac, France	Dec 2019 - Nov 2021
	<i>CNRS Postdoctoral contract</i> Laboratoire d'Astrophysique de Bordeaux, Pessac, France	Mar 2018 - Nov 2019
	<i>Research assistant</i> Institut d'Estudis Espacials de Catalunya, Barcelona, Spain	Jun 2017-Feb 2018
PREDOC EXPERIENCE	<i>APIF PhD, Universitat de Barcelona</i>	Apr 2014-2017
	<i>Collaboration grant with the Institut de Ciències del Cosmos</i>	Oct 2013-Mar 2014

<i>Collaboration grant with the Universitat de Barcelona</i>	Jan-Jun 2013
Department of Astronomy and Meteorology, Universitat de Barcelona	
<i>Collaboration grant with the Universitat de Barcelona</i>	Jan-Jun 2013
Department of Fundamental Physics, Universitat de Barcelona	
<i>Summer scholarship: Introduction to the research in astrophysics</i>	Summer 2009
Instituto de Astrofísica de Canarias (IAC)	
INTERNATIONAL STAYS	
<i>Universidad Diego Portales</i>	
8 Nov - 8 Dec 2019, Santiago de Chile, Chile	
<i>Leibniz Institute for Astrophysics Potsdam</i>	
1 Oct - 1 Dec 2016, Potsdam, Germany	
<i>Ossevatorio Astronomico di Bologna</i>	
GREAT-ITN exchange grant 'OCCASO: Detailed chemical abundances of intermediate and old open clusters in the Northern Hemisphere'	
15 Apr - 15 Jul 2014, Bologna, Italy	
<i>Instituto de Astrofísica de Canarias</i>	
Training period. Feb 2014, La Laguna, Spain	
SUPERVISION PhD THESIS	
Co-supervision of the PhD student Judit Donada Oliu	
CHEMICAL CHARACTERISATION OF SOLAR TWINS IN OPEN CLUSTERS	
Universitat de Barcelona. Jun 2023 -	
Co-supervision of the PhD student Juan Carbajo-Hijarrubia	
THE CHEMICAL EVOLUTION OF THE GALACTIC DISK USING ITS OPEN CLUSTERS	
Universitat de Barcelona. Sep 2018 -	
Co-supervision of the PhD student Yoann Tarricq	
3D KINEMATICS AND METALLICITY OF STARS IN THE SOLAR NEIGHBOURHOOD	
Laboratoire d'Astrophysique de Bordeaux. Oct 2018 - Dec 2021	
TEACHING EXPERIENCE	
Supervision of the bachelor student Tristan Boin	
GALACTIC ARCHAEOLOGY THROUGH AGE DETERMINATION USING GAIA AND LAMOST	
GEPI Observatoire de Paris. Apr-Jul 2022	
Co-supervision of the Master student Maria Balaguer	
THE OUTSKIRTS OF OPEN CLUSTERS WITH GAIA AND WEAVE	
Universitat de Barcelona. Jan-Jun 2021	
Supervision of the Master student Tommy Rodrigues	
EXPANDING THE GAIA BENCHMARK STARS CATALOG	
Laboratoire d'Astrophysique de Bordeaux. Mar-Jun 2021	
Co-supervision of the Master student Raphael Hazem	
DIFFERENTIAL ABUNDANCE ANALYSIS OF RED GIANT STARS IN OPEN CLUSTERS	
Laboratoire d'Astrophysique de Bordeaux. Mar-Jun 2020	
Co-supervision of a Master student Nadira Ikheneche	
THE CHEMICAL COMPOSITION OF THE HYADES	
Laboratoire d'Astrophysique de Bordeaux. Mar-Jun 2018	
Degree in Physics. University of Barcelona. 2014-2015, 2015-2016, 2016-2017	
• <i>Astronomy</i> mandatory subject, 2nd year. Total: 64 h	
• <i>Observational Astronomy</i> optative subject, 3rd year. Total: 94 h	

Universitary program *Universitat de la experiència*. University of Barcelona. 2014-2015, 2015-2016, 2016-2017

- *Astronomy and Meteorology, 18 h mandatory subject, 1st course*

Project *Windows to the sky: a glance to the universe*, finaced by the program "Youth and Science"¹. 2015, 2016, 2017, 2018, 2019, 2021 and 2022 editions.

- Two weeks (in July of each year) of theoretical teaching and practical lessons in astronomy, oriented to 16-year old students with excellent scientific profile.
- Supervision of research works done by the students during the following 4 months

IMPARTED SEMINARS

Seminar at the Pontificia Universidad Católica de Chile: "Detailed chemistry of open clusters" 22 Nov 2022 Santiago (Chile)

Seminar at the University Complutense of Madrid: "Exploring chemical tagging using high precision abundances of open clusters" 20 Oct 2021 Madrid (Spain)

Seminar at the University of Birmingham: "Abundance-age relations with red clump in open clusters" 20 Apr 2021 Birmingham (UK)

Seminar at the University of Atacama: "The chemical evolution of the Milky Way disc through chemical clocks" 26 Nov 2020 Copiapó (Chile)

Seminar at the University of Barcelona: "Chemically characterizing nearby evolved Open Clusters" 14 Feb 2019 Barcelona (Spain)

Seminar at the Laboratoire of Astrophysics of Bordeaux: "Stellar spectroscopy and abundance analysis, how to use iSpec code" 31 May 2018 Bordeaux (France)

Seminar at the Leibniz Institute for Astrophysics Potsdam 28 Nov 2016 Potsdam (Germany)

Seminar at the Osservatorio Astronomico di Bologna 9 Jul 2014 Bologna (Italy)

COMPUTER SKILLS

Languages: *LaTeX, Python, FORTRAN77, R, C, IDL, ADQL*

Astronomy general software: *IRAF, TOPCAT, STILTS, iSpec, DAOSPEC*

OTHER RESEARCH MERITS

Qualification of Advanced research by the AQU - Agència de Qualitat pel Sistema Universitari de Catalunya (Jan 2023)

Qualification of "Lector" by the AQU - Agència de Qualitat pel Sistema Universitari de Catalunya (Jan 2020)

Qualification of "Maître de conférences" (Jan 2020)

A publication chosen as "highlighted publication" in the high-impart journal *Astronomy&Astrophysics* (Castro-Ginard, Jordi, Luri, Álvarez Cid-Fuentes, **Casamiquela** et al. 2020)

Observational experience in the Observatorio del Roque de los Muchachos (ORM) in La Palma: HERMES instrument at the Mercator telescope (1.2 m), FIES instrument at the Nordic Optical Telescope (2.2 m) (high-resolution spectrographs), and the WFC and IDS instruments at the Isaac Newton Telescope (2.5m) (imaging camera and intermediate resolution spectrograph).

PI of several accepted observing proposals at the telescopes: CFHT (Mauna Kea Observatory), TBL (Pic du Midi Observatory), Mercator (ORM), NOT (ORM), INT (ORM), 2.2mCAHA (Calar Alto Observatory).

Knowledge of observational techniques and reduction techniques of both photometric and spectroscopic (low and high-resolution) data.
